U.S. AIR FORCE

JIC-CBA Status: IAMD

- **Concept Author Insights: Good work by Army lead**
  - **Good continuity of capabilities from JIC to CBA**
  - **Good maintenance of broad scope until completion of FNA—then narrow scope/focus in FSA**
  - **Good integrity of process**
    - **No pet rocks/preconceived solutions mandated**
    - **No premature introduction of information/data without analysis or before it's required by JCIDS**
